HOME 4G

weBoost brings you seamless, uninterrupted cellular connectivity in your home or small workspace. Your cell phone is an essential part of your life. You depend on it to stay connected to everything important - family, friends, work.

The weBoost Home 4G™ cellular signal booster is a simple, effective solution to maintain continuous communication for all cellular-enabled devices – smartphones, tablets, etc - in 1 to 2 rooms of your home or workspace.

Installation is straightforward and can be completed with minimal tools. A step-by-step video guides you through connecting two antennas to the booster. The antennas communicate with cellular devices and the cell tower for the strongest, most powerful signal possible.

weBoost amplifies signals to improve coverage—including 4G LTE—no matter your cellular carrier in the United States and Canada. The Home 4G comfortably handles multiple simultaneous connections across multiple carriers, providing effortless voice and data communications for all users.
